1. The equipment and reports resulting from the subject task order have been UNCLASSIFIED. The development of the equipment under this task order, however, has reached a stage where the reports may reveal possible operational use of the equipment. The equipment should remain unclassified, but letters, monthly or bi-monthly reports, final reports, and associated photographs, charts, or diagrams should be classified SECRET. The contractor has been verbally notified of this change by the technical representative of this office.

2. It is requested that your Office formally notify the [REDACTED] to make proper classification of all written documents pertaining to this task order in the future. 25X1
